

LETTER OF RECOMMENDATION

Caterpillar Financial Services Poland offers various financial solutions to clients interested in the purchase of Caterpillar equipment. In order to improve the management of invoices, the company decided to launch the e-invoicing service provided by Infinite.

The benefits of onboarding the e-invoicing solution have been noted by clients and employees of Caterpillar Financial Services Poland. In contrast to the paper-based invoices, e-invoices are always delivered on time without the risk of loss or delayed delivery of documents.

We would like to recommend Infinite and its ECM solutions. Efficient cooperation of Caterpillar Financial Services Poland and Infinite is based on the high quality of the deployed solution as well as professional and flexible approach of the vendor's employees who concentrate on fulfilling business objectives of Caterpillar.

Sincerely,

Jarosław Myszkowski
Country Manager
Eastern Europe Area
