LETTER OF RECOMMENDATION

Alphabet Poland Fleet Management provides comprehensive Car Fleet Management solutions. The flagship services include long-term car rental, full service leasing and fleet management.

In 2009 Alphabet Poland Fleet Management decided to replace paper invoices sent via postal services with e-invoices.

The deployed system contributed to enhancing the processes of issuing and distributing invoices to the clients of Alphabet Poland Fleet Management. Currently clients have fast and convenient access to issued documents, what allows for planning any money transfers in advance.

The e-invoicing solution offered by Infinite Sp. z o.o. is worth the recommendation. The improvements achieved thanks to this service are noticed by both employees and clients of Alphabet Poland Fleet Management. We would like to recommend Infinite Sp. z o.o. for the professional support and adherence to deadlines at every stage of the project.
